

# MULTI

✓ *Access your WinLine online via the modern HTML interface - either via web browser or mobile devices.*

Would you like to work flexibly and platform-independently in your WinLine? Then WinLine MULTI is your solution!

With its HTML interface, WinLine MULTI is modern and extremely user-friendly. Of course, you can also use the full range of functions of your WinLine ERP and CRM software. All you need is an Internet connection and a web-enabled end device. Access is either via a web browser or via our specially programmed apps for mobile devices.

**MULTI**

The screen windows in WinLine MULTI are responsive and therefore automatically adapt to the format of the end device used. Regardless of whether you are working with a web browser, smartphone, tablet, netbook or laptop - the screen interface is always optimised.

WinLine MULTI is fully mobile-capable, so that you can work in your WinLine even when you are on the move - and therefore independent of time and location. All activities are carried out in real time.

**Spezielle Funktionen auf mobilen Endgeräten:**

- ✓ Item recognition via barcode scanner and direct transfer to document entry
- ✓ Electronic signature on documents
- ✓ Setup of push messages for appointments, service processes, etc.
- ✓ Location determination incl. GPS area search
- ✓ Upload of photos
- ✓ Two-factor authentication

WinLine MULTI is a lean and flexible solution based on HTML:

- + Platform-independent HTML interface
- + Complete WinLine ERP/CRM functionality
- + Easy deployment and updating through the use of web technology
- + Access via Internet connection via browser or mobile devices
- + Responsive design - automatic adaptation of the screen to the end device used
- + MultiTab/MultiWindows-capable for convenient working in the applications
- + Can be used at any time and from any location

**More information on WinLine MULTI - Multi-platform access can be found on our website:**
